analytica Lab Africa — The Premier Trade Fair in Southern Africa

analytica Lab Africa is the leading exhibition for laboratory technology, analysis, biotechnology and diagnostics for the South African market, taking place every two years in Johannesburg. The exhibition brings together internationally renowned manufacturers, laboratory users and consultants in one common platform to discuss best practice and seek solutions to some of the most pressing challenges related to the industry and research.

The first edition in 2019 celebrated a successful premiere, hosting 148 local and international exhibitors from 15 countries presenting their tailor-made solutions to 3,232 visitors from 26 countries.

Show Profile

- Product Management: 2%
- Finance / Accounting / Controlling: 1%
- Human Resources / Administration: 1%
- Marketing / PR: 1%
CO-LOCATION WITH IFAT AFRICA

Together, the two shows feature trends and innovations from the environment, as well as from laboratory and analysis technology.

Charl Yeates (Ph.D), MS Product Specialist, for Shimadzu:

“The co-location of the two shows worked out very well for us as it resulted in us having access to numerous visitors that we would not otherwise have had the opportunity to meet. This show allowed us the opportunity to meet, network and engage with international companies and guests. It opened the door for us to discuss potential collaborative endeavours with other exhibitors as well. This is first and foremost a sales exhibition and that is what sets it apart from most other exhibitions. People have come to buy and sell.”

Attractive Venue - Gallagher Convention Centre

Gallagher Convention Centre is on of Africa’s largest conference and exhibition venues. Located in Midrand, between Pretoria and Johannesburg, Gallagher is conveniently positioned in the business hub of Gauteng.

The 5-Star convention centre is easily accessible to exhibitors and visitors by road and by the Gautrain, which links the venue to Pretoria, Sandton and OR Tambo International Airport.
The global network for your international business

analytica Lab Africa is a part of the worldwide analytica network, including analytica in Munich, analytica China, analytica Anacon India/India Lab Expo and analytica Vietnam. The global network combines innovations and trends with country-specific main themes, precisely tailored to the market. Plus, the recipe for success of the mother fair: depicting the market and bringing together all key players at an international level. Exhibitors benefit from our international network and our global partnerships with associations, key industry players and media.
